Mission: To pursue European interests within the Blockchain/DLT Standardisation landscape

OBJECTIVES

Obj.1: Establish a facility dedicated to support EU experts contributing to blockchain standardisation efforts, in alignment with the Rolling Plan for ICT Standardisation.

Obj.2: Liaise with EBP initiatives and European SDOs in the area of blockchain/DLT standardisation.

Obj.3: Map the sector and engage all Stakeholder Groups promoting the EU standardisation initiatives, also via organisation of international events.

Obj.4: Contributing to implementation of European Values and sustainability of the EBSI.

Contribution to standards
- 40+ EU Experts funded via 4 Selection & Support Procedures (€300,000 assigned)
- Contribution to 100+ standardisation documents
- Increased international presence of EU experts with SDOs
- ...

Reports, tools, and materials
- Landscape and gap analysis report on Blockchain/DLT standardisation (3 releases)
- Contributions to ICT Rolling Plan
- Synergy and strategy report on EBP, EBSI, INATBA, STandICT.eu, The Blockchain Observatory and Forum
- Blockchain/DLT standardisation promotion and education report (2 releases)
- Promotional & educational materials and tools
- ...

SB

Synergies unlocked
- Direct support to EBP, EBSI, INATBA, STandICT.eu, The Blockchain Observatory and Forum via the Permanent Task Force (PTF)
- DEP, HE, and H2020 R&I Initiatives with standardisation potential
- 75+ selected best practices
- Re-use of the StandICT.eu grants platform
- Up-to-date EUOS on Blockchain/DLT
- ...

Community
- 3000+ community members
- 2250+ social media followers
- 10+ EPE members
- 75+ Best Practices
- ...

Outreach
- 2 Annual Impact Events
- 4 Workshops (2 in EU, 1 in US, 1 in Aus)
- 12 Webinars
- 1 public consultation
- 8 newsletters
- 8 Press Releases
- 7 Professional Videos
- Visibility at 6+ third party events
- ...

*Seeblocks.eu consortium comprises **3 European partners (plus 1 Affiliated Entity)** from three different countries, plus Ms Fiona Delaney*(DCU subcontractor & Origin Chains Founder) bringing complementary skills and expertise.*

SEEBLOCKS.eu Key Outputs

SEEBLOCKS.eu

Selection and Support Procedure - **€ 300,000** earmarked to support **40+ European experts** contributing to Blockchain/DLT Standardisation efforts, in line with the Rolling Plan for ICT Standardisation.

Contribution to **100+ Standardisation documents** (Deliverables/Technical Reports/Specifications) by the Experts funded by SEEBLOCKS.eu.

Establishment of a **Permanent Task Force** (PTF) in collaboration with EU Blockchain players with a coordinated approach on the EU & International scene.

Set-up of Technical Working Group of experts to deliver a **"Landscape and Gap analysis Report"** on Blockchain/DLT Standardisation.

Development of the **Standards Visualisation Tool** to foster Education and Capacity building on Blockchain/DLT Standardisation.

*Concrete **key exploitable results** that will stem from the transversl activity of SEEBLOCKS.eu aiming at supporting participation of EU start-ups, SMEs, independent experts, academic to either carry out their researches & to contribute to the implementation the ICT Rolling Plan's objectives, with reference to blockchain / DLT standardisation.*

SEP for Applicants expected to be launched by end of August

The EPE SEP will be open next 26th July!

We are looking for 10+ independent experts on blockchain/DLT to evaluate future the applications coming from the experts.

Stay tuned & find out more on the eligibility criteria, services required & evaluator's requested profile.

Actions agreed between SEEBLOCKS and Blockstand

SEEBLOCKS.eu
Supporting Europe's effort in Blockchain/DLT Standardisation
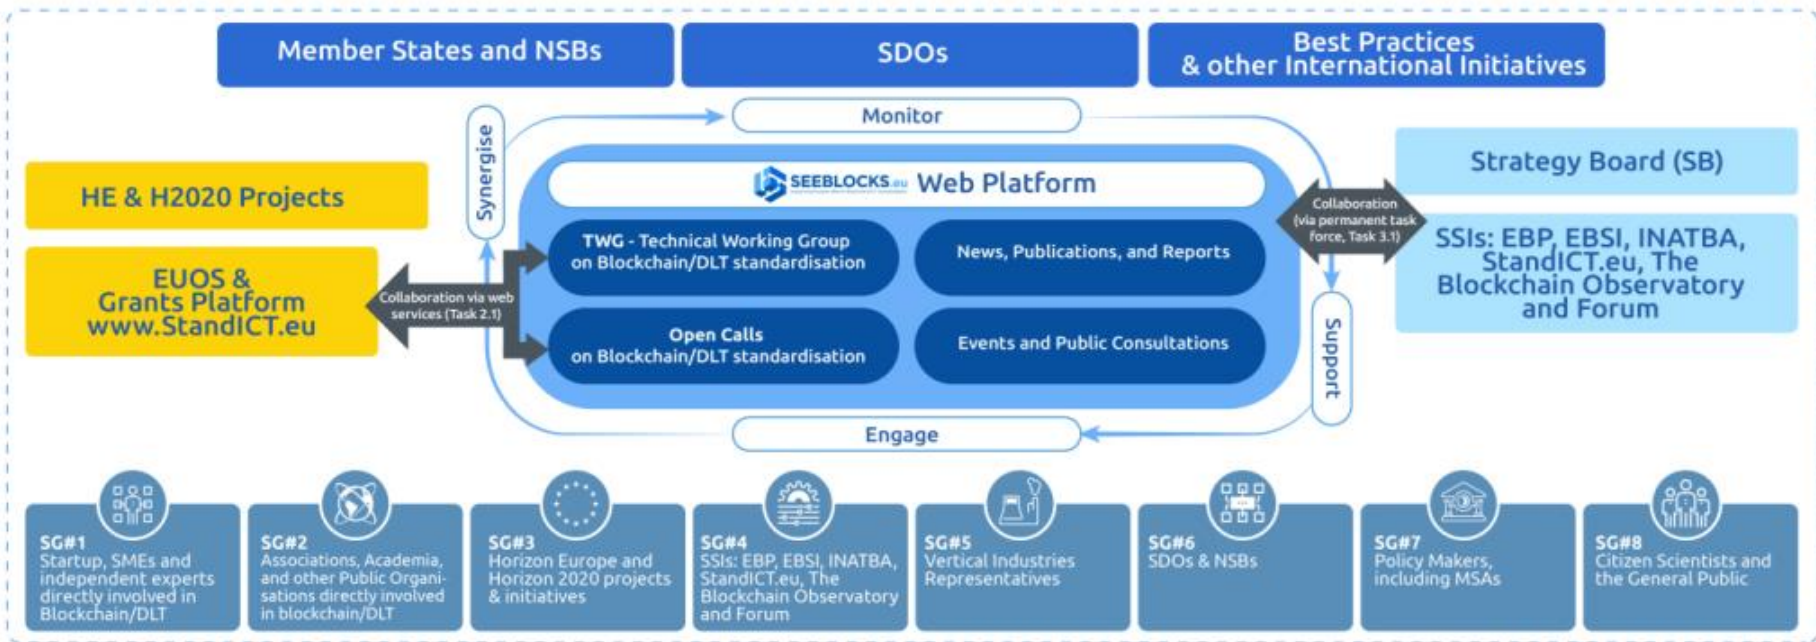

- BLOCKSTAND and SEEBLOCKS.eu to set periodical meetings + a "hot line" via email to discuss the following:
  - Joint events: A first, joint webinar is being organized with a target date at the end of July (see separate slide).
  - It is agreed to have seats on reciprocal Executive/ Strategy boards
  - Selection procedures: important to share information on names of the applicants and target groups.
  - ICT Rolling Plan: need to arrange internal meetings to align on key points.
  - Repository: hard to have a shared one, due to the difficulties in content alignment - to be discussed.
  - Sharing reciprocal timelines and coordinating outreach.
