![SEEBLOCKS.eu - Supporting Europe's effort in Blockchain/DLT Standardisation]

PRESS RELEASE –SEEBLOCKS.eu Visualisation Tool Goes Live– 28 December 2023

The new SEEBLOCKS.eu Standards Visualisation Tool on Blockchain & Distributed Ledger Technologies is available now for public viewing

SEEBLOCKS.eu announces the official launch of its multilingual Standards Visualization Tool, providing users with seamless access to and download of publications within especially the Blockchain & Distributed Ledger Technologies (DLT) Standardisation domain, but also ICT standardisation in general.

Ultimately, the tool aims to support future navigation around blockchain/DLT standardisation and to become an instrumental hub to foster Education in blockchain Standardisation and Capacity Building in Europe in the blockchain arena.

With the introduction of this innovative tool, users can effortlessly navigate through many resources (available in English and German). From slides and books to articles, papers, and videos, the Visualisation Tool empowers users to explore and engage with our diverse range of materials.

SEEBLOCKS.eu's commitment remains steadfast in ensuring that upcoming standardisation initiatives align closely with European interests and values. This dedication is integral to our broader objective of making significant contributions to the blockchain sector, seamlessly integrated into the annually updated Rolling Plan for ICT Standardisation. This strategic plan identifies key EU policy priorities, underscoring the crucial role of standards and ICT technical specifications in effective policy implementation.

View the Tool here.

The SEEBLOCKS Partners

The lean and skilled Consortium of Partners is coordinated by **Trust-IT Srl**, an SME with over 15 years' experience of managing complex pan-European projects including StandICT.eu, the flagship European ICT standardisation project. Partner **COMMpla Srl** contributes mature and sophisticated platform technology know-how to provide a rich environment hosting a myriad of Blockchain standardisation activities. **Dublin City University** is a major player and emerging technologies standards leader in Standards Working Groups and Technical Communities, as well

as educating future standards experts. The team is rounded out by the **Fraunhofer Institute** for Systems and Innovation Research ISI, an innovation research institute with expertise in the interface between R&I and standardisation with teaching skills and works on the impact assessment of blockchain pilots as part of the IMPULSE project. All partners provide synergies with both StandICT.eu and HSBooster.eu – which provides tailored Standardisation support to H2020 and Horizon Europe projects.

Join the SEEBLOCKS.eu Community!

European blockchain standardisation experts are invited to apply for our grants to help us enable the EU priorities of strengthening and deepening the ecosystems of ICT Standardisation experts that will drive the next generation of Blockchain and DLT standards developers. Further details and updates about the development of SEEBLOCKS.eu - including our Technical Working Group and Strategy Board - will be disseminated through the official website, via our social media channels Twitter and LinkedIn and YouTube channels as well as via a regular SEEBLOCKS.eu newsletter. Write us to sign up for our newsletter at contact@seeblocks.eu

SEEBLOCKS.eu in a nutshell

- SEEBLOCKS.eu project has received funding from the European Union's Digital Europe Programme (DIGITAL) under grant agreement No 101102718.
- Starting/Closure date: June 1, 2023 – May 30, 2025
- Consortium 4 partners from 3 member states
